

WORKSHOP 'Help, I have a conversation'

Purpose

During this workshop, we help employees take more control in a performance or development conversation. They learn how to approach the conversation and how to prepare for it, in order to get the most out of it. This gives employees more confidence and practical skills to have a strong and effective conversation. Both the employee as well as the manager benefit from this.

Content

This workshop can be tailored to your organization. The following topics are covered:

Practical information

- Target audience: everyone that wants to prepare for his or her yearly development talk
- Group size: 4 – 8 participants
- Duration: half a day
- Location: In-company or at an MEPD location
- A+O Metalektro affiliated companies are entitled to subsidies for this workshop.
